

**September 9, 2013**

**Hello All**

**I recently joined the Adams County Chamber of Commerce so that I could better connect with other business owners and residents of Adams County. I have been protecting people from the financial side of catastrophic medical events for several years now, but I have only been able to reach a fraction of the businesses and people in Adams County. Now that I am a Chamber Member, I feel as though I will be able to reach more people and build stronger business relationships within the County due to the help and support I have received. If you are a business owner in Adams County you owe it to yourself , your employees and the community to join the Adams County Chamber of Commerce . You'll be so glad you did!!**

**Thanks
